Breath of fresh air. Magic in his talk in his presentation. What an inspiring speaker.

Loved following his mind, fascinating individual.

Thank you, what a gift Absolutely loved the presentation by John. I was mesmerized by his life experiences and consider him a true Renaissance Man.

I consider him one of the best speakers we have ever had the privilege to hear.

I loved his mind and his life journey and his 'stream of conscious' way of presenting.

Refreshing and compelling! Love to hear how original minds think and process the world. The poetry was icing on the cake. Been so long since my literature class when I first read those exquisite poems that touch the soul.

LOVING this intriguing speaker and his mind-bending and visual way of presenting information. Compelling and thought provoking.

One of the best speakers we have ever had. BRAVO!
